Kian Contract at MIFF 2006

Kian Contract and MIFF 2006

The 12th Malaysian International Furniture Fair 2006 (MIFF 2006) was recently held to great success at the Putra World Trade Centre (PWTC) from the 7th to 11th of March 2006. As a leading manufacturer and designer of furniture, Kian Contract was once again a prominent participant in this international fair. True to form, and as a testament to its pursuit of design excellence, Kian Contract was awarded the silver award for best booth presentation.

Hotel Maya

Kuala Lumpur's most fashionable commercial address, Hotel Maya, is Kian Contract's recent project of pride. The 5-star 'resort-in-the-city' boutique hotel is set to be the region's latest style and design icon. The working relationship was simple: a healthy partnership of refreshing ideas matched by quality

physical output to manifest the hotel's very chic and elegant, sophisticated yet subtle styling theme.

Further collaboration with the hotel's architect led to the creation of contemporary stainless steel tables with phenolic tops. Kian Contract's signature style is evident – out of the box designs for the chairs and sofas that leave a distinctive impression. Step into the hotel's gallery-like rooms to experience artistic functionality. Each one an understated salute to the virtues of fine yet practical design craftsmanship.
