PROJECT	JURY CITATION	PHOTO
<u>SINGLE RESIDENTIAL</u> <u>GOLD</u> Project: Twinkle Villa Architect: CY Chan Architect Client: Twinkle Villa Sdn Bhd Builder: Zhen Ye Projects Sdn Bhd	The villa converses eloquently with the idyllic forest and responds climatically to the setting despite its brutal outlook. Hard on the external appearance but it transforms and opens up dramatically towards the woodlands while unravelling the charming and delightful ambience of a retreat within.	
<u>SILVER</u> Project: House No 10 Architect: Arc Partnership Client: Mr Loo Chee Keong Builder: Neogen Green Tec Sdn Bhd	Landlocked and possessing no dramatic view in its immediate vicinity the house with three inward looking courtyards and tiered gardens literally rises above its mundane neighbourhood whilst treating its occupants to a series of vibrant spatial experience enhanced with bioclimatic responses and sustainable green features.	
<u>COMMENDATION</u> Project: Clay Roof House Architect: Drtan Lm Architect Client: Kenneth Koh Seng Kee & Chew Kim Ann Builder: Elbt Builder Sdn Bhd	A clever solution which recycles the original house's roof clay tiles, reassigned as a striking sun-shading device and duly incorporated as part of the new residence.
