Post Graduate Dip. Urban Design, B. Arch (Oxford) United Kingdom, APAM,

Ar. Adrianta Aziz received his Post Graduate Diploma in Architecture and Urban Design from Oxford Brookes University, United Kingdom in 1999 after an initial Diploma in Architecture from UiTM Shah Alam. Much of Adrianta's Studio work received recognition for UiTM's best design and he was an active student leader in Architectural Design Discourses organized by the University. Adrianta has been involved in several wide ranging project types including conservation works for London's Heathrow Airport Terminal 4 and Urban Regeneration projects for Oxford County Council, UK from 1997 to 1999. Upon returning to Malaysia, Adrianta worked with Pembangunan Bandar Mutiara Sdn. Bhd. A Penang based developer building an integrated mixed development. He then rejoined private practice with Akitek Rekabina Sdn. Bhd and is currently Managing Director with AR'RAD Architects, an established firm with notable concern for sustaining the environment in architectural projects. Adrianta plays an important role in spearheading the company's design capabilities in further enhancing the sustainable development theme.
