## PAM CPD SEMINAR 2015

# ***“Changing Scenario Of Practice For Generation Z Architect”***

**by Ar. Adrianta Abdul Aziz**

### SYNOPSIS OF PRESENTATION

#### **CHANGING SCENARIO OF PRACTICE FOR GENERATION Z ARCHITECTS**

*Born after the Millennial Generation, Generation Z has been defined by the technology itself. Being technology driven they have evolved to becoming an independent, pragmatic stubborn and always in the rush. For this reason as well they have also become the ultimate 'self-educators' learning anything and everything in and on the net.*

*A part of this Generation would also be the future architects, the future builder. As time becomes the vital essence, appreciation for the NATURE, ART and the joys of the LEARNING PROCESS would also become depleted which were once the PILLARS of ARCHITECTURE. Human interaction has been replaced by the interaction with gadgets and software. There is absolutely no room for mistake, no room to ponder out thoughts to which that is the primary essence which makes us human and appreciative to our surroundings.*

*This lack and depleted trait will soon define our future architects. And we will soon see buildings and creation without PASSION and SOUL. Gone are the SINCERITY in doing this art of ours, the HUMBLENESS of interacting with the society and surrounding and the SHARING of the craft and knowledge as the Generation Z becomes more self-absorbed and knowledge-egoist. As such the current care takers must then addressed this so that the future builders will not be LOST in this transformation of AGE in order for ARCHITECTURE to stay true to its nature.*

### THE SPEAKER

Ar. ADRIANTA AZIZ

LAM : A/A172

PAM : M2349

Post Graduate Dip. Urban Design, B. Arch (Oxford) United Kingdom, APAM,

Ar. Adrianta Aziz received his Post Graduate Diploma in Architecture and Urban Design from Oxford Brookes University, United Kingdom in 1999 after an initial Diploma in Architecture from UiTM Shah Alam. Much of Adrianta's Studio work received recognition for UiTM's best design and he was an active student leader in Architectural Design Discourses organized by the University. Adrianta has been involved in several wide ranging project type including conservation works for London's Heathrow Airport Terminal 4 and Urban Regeneration projects for Oxford County Council, UK from 1997 to 1999. Upon returning to Malaysia, Adrianta worked with Pembangunan Bandar Mutiara Sdn. Bhd. A Penang based developer building an integrated mixed development. He then rejoined private practice with Akitek Rekabina Sdn. Bhd and is currently Managing Directors with AR'RAD Architects, an established firm with notable concern for sustaining the environment in architectural projects. Adrianta plays an important role in spearheading the company's design capabilities in further enhancing the sustainable development theme.
