**Spaceshift** ( [www.spaceshiftstudio.com](http://www.spaceshiftstudio.com) ), the architectural photo and essay studio based in Bangkok, has been photographing architecture, art, and design domestically and internationally. Established in 2005, the Thai studio led by two partners, **Pirak Anurakyawachon** and **Aranyarat Prathomrat**, with backgrounds in multidisciplinary practices and knowledge; from architect to photographer, from magazine editor to artistic and styling consultant. That explains the reasons behind Spaceshifts' signature in photography issues which is not only to take pictures of buildings or design objects but also to *clarify* the creativity and imagination of those creators into frames. Spaceshift Studio currently works on photographic assignments for architect firms, project owners, corporate, and advertising clients.

**Pirak Anurakyawachon** Born in 1974, Pirak graduated in 1999 from the Faculty of Architecture at Silpakorn University in Bangkok. In 1997-1998, he interned with an architect in Holland where he began shooting buildings around Europe. In 2000 as a cultural representative at Florida's Walt Disney World, Pirak travelled around the United States to visit buildings and shoot them. Returning to Thailand in 2001, he worked as an architect for a year before going to work with the iconic Thai magazine, art4d, as a contributing editor. In 2002, he began training to be a professional architectural photographer with Mr. Somkid Piempiyachat, the Thai master of architectural photography. Pirak hopes to share knowledge with the younger generation, giving regular lectures and workshops in design schools and communities around country.
