The workshop intent to serve as a bridge for professionals new or familiar to planning and design of healthcare facilities in public and private sector, moments to reflect and share the theory and practice of implementing healthcare typology projects. The 2-day workshop covers the concepts of health services planning, procurement, formulation of project briefs, master planning, design development, construction management, commissioning, and post occupancy evaluation. The workshop is based on MoH Malaysia and WHO format. Practical group exercise will be held throughout, and active participation is required to acquire all round experience.

DATIN SERI AR DR NORWINA MOHD NAWAWI

Datin Seri Ar Dr Norwina Mohd Nawawi, B Arch graduate from UTM in 1979, MA in Health Facility Planning from Medical Architecture Research Unit, North London Polytechnic in 1984 and a PhD in Built Environment from IIUM in 2015, is an architect and health facility planner who had served in Cawangan Perubatan and Kesihatan, Ibu Pejabat Jabatan Kerja Raya Malaysia, Bahagian Perancang Kementerian Kesihatan Malaysia from 1979 to 1998 and teaches and research on architecture and healthcare architecture at International Islamic University Malaysia (IIUM) since 1998 to date. While In service with JKR, she was responsible for among others Kuantan Hospital, University Malaya Unit Rawatan Utama, laboratories, nurses' hostels and Upgrading of existing healthcare facilities in many states of Peninsula Malaysia.

While with KKM, she was part of the ADB Core Team managing the 12 redevelopment of hospital projects from Perlis to Sabah as well as initiating formulation of project brief initially for 12 hospitals under redevelopment and later for Hospital Selayang and Sungai Buloh. At IIUM, she undertakes consultancy and advisory services on healthcare projects with local architectural firms to advise on healthcare facility planning for hospitals such as Shah Alam Hospital, Ambulatory Care Hospital Raja Perempuan Zainab 2, and IIUM Teaching Hospital at Kuantan. She was an Associate Professor at IIUM from 1998-2020 and currently serve as Senior Academic Fellow to date. She is also a fellow in PAM and representing PAM as member of the Union of International Architects in Public Health work programme and Architecture for all work programme.
